

## ocilion launches Entertainment HD: Over 5,000 titles on demand for the whole family

- Mix of 22 film, series, sports, documentaries, children's and music channels in HD now available
- TV on demand at any time with over 5,000 titles thanks to 7 days replay & restart

Ried im Innkreis / Austria, May 4, 2021 - ocilion is expanding the program portfolio of its IPTV solution for network operators with 22 HD channels with immediate effect. From this, ocilion puts together the attractive "Entertainment HD" pay TV package for the whole family with a comprehensive mix of film, series, documentaries, sports, children's and music channels. The unique thing about the program package: Thanks to Replay, viewers can jump back in time and enjoy programs from the last seven days at the push of a button. Programs that are already running can be viewed right from the start with the restart function. Over 5,000 titles are available around the clock. Ocilion obtains the rights for the broadcasters from its partners content4tv, Discovery Germany and Your Family Entertainment AG (YFE). Network operators and municipal utilities can now purchase the Entertainment HD package and make it available to their customers. To the program trailer: [https://youtu.be/9\\_1oVnhLxkk](https://youtu.be/9_1oVnhLxkk)

Thomas Bichlmeir, Head of Content at ocilion: "With the new 'Entertainment' package, we are offering our network operators an exciting bouquet of TV channels for the whole family. We serve all interests from sports to documentaries and family programs to films and series. Thanks to seven days of replay for all 22 channels, over 5,000 titles are always available on demand. This gives viewers more freedom to enjoy great content. Our customers enrich their portfolio with dozens of additional functions that underline the advantages of IPTV compared to traditional TV broadcasting. "

Bernd Wendeln, COO at Your Family Entertainment AG: "We are very pleased that our exciting edutainment program is now also available at ocilion. In this way we can inspire even more young viewers and families with our entertaining, educational and non-violent content."

### **About Ocilion IPTV Technologies GmbH**

The IPTV specialist ocilion is developing tailor-made complete IPTV solutions since 2004 for service providers and network operators as well as for the in-house sector – from hotels to hospitals to stadiums. As leading B2B provider in German-speaking countries, ocilion provides more than 80 network operators and has realised more than 150 in-house installations. Service providers have the choice between a local installation (on-premises) and a comprehensive cloud service (hosted by ocilion) as a rental option – optimized for small and medium-sized network operators.
