

Set Top Box P570 Hybrid

5th generation - 5 new models

The P570 is the all-rounder of the five models in the new P500 product line and is suitable for both: IP and DVB-C environments. As part of the new P500 product line, it is particularly powerful and it supports the latest technology standards. The heart of the hardware is the chip from the manufacturer MTK. The P500 series was honored with the *Red Dot Design Award 2020*.

Hardware & interfaces

In addition to 4K / HDR, the P570 supports latest technologies. It is equipped with a DVB-C tuner which takes over the processing of the DVB-C signals for a wide variety of purposes: The tuner processes several signals parallel so that channels are available in the shortest possible time. This results in extremely short switching times. With the integrated app platform based on HTML5, apps and external content can be accessed directly from the box. The P570 can be operated with infrared or Bluetooth remote control. The integrated wi-fi receiver enables wireless operation. The P570 works without a fan and runs silently.

Size: 13 x 13 x 2.5 cm (width/depth/height)

Deep standby power consumption:
< 0.5 W (Ecodesign)

Consumption in operation: max. 5.9 Watt at UHD

Smart LED bar showing the operational status

4K resolution (3.840 x 2.160 Pixel) & HDR

HEVC (H.265), H.264, H.263

Chip: MTK 5251

CPU: Quad ARM A55, 16,000 DMIPS

GPU: Mali ARM G52 OGL 3.2

RAM: 2 GB DDR4, 1333 MHz

Flash capacity: 8GB eMMC Flash

Ethernet RJ45, 100 mbit/sec

Tuner: MaxLinear 4x DVB-C Tuner

HTML5 browser

Bluetooth BT 5.0

Integrated IR sensor

WiFi 6, 2.4/5GHz

Verimatrix 4.0 Ultra DRM for IP, IP/DVB-C & OTT

Micro SD Slot

Stereo 3.5 mm jack socket

S/PDIF optical

RF connector

HDMI 2.0 with HDCP 2.2

USB 3.0

12V power

 All-rounder for IP and DVB-C environments

 App platform

 Integrated Wi-Fi
